Bengaluru, India

SUMMARY

I am a passionate and detail-oriented Front-end Developer with a strong background in React, TypeScript, and JavaScript. My expertise lies in creating scalable, efficient web applications while focusing on user experience. I am proficient in several cloud technologies and modern development tools, and I am eager to contribute my technical skills to a forward-thinking organization that values innovation.

EXPERIENCE

Developer

Sapiens

08/2023 - Present Bengaluru

Sapiens is a provider of software solutions for insurance companies.

- Implemented and enhanced configurable UI for the Sapiens Digital Portal.
- Contributed to new features implementation, bug fixes, and release support.
- Actively volunteered for demo activities and certifications.

Software Engineer (Web Application Developer)

Lowe's Services India Pvt. Ltd.

08/2018 - 08/2023 Bengaluru

Lowe's Services India provides technology and support services for Lowe's.

- Designed and developed the product **Optimus**, which manages cloud expenses for my organization. This application replaced *Cloudability*, saving approximately \$600K per year. Built using *React.js* and *Material UI*, with API testing conducted using *Postman* and *JEST*.
- Developed UI for **Graphite**, a process automation tech stack using *React JS*.
- I also contributed to performance engineering for critical applications like **MRV**, which facilitates order modifications. Additionally, I participated in holiday readiness testing to ensure optimal performance during peak sales periods.
- Engaged in side projects with Python, HTML, CSS, JavaScript, and Bootstrap.

EDUCATION

Bachelor of Technology

Electronics & Communication/Telecommunication Engineering

Techno India University

08/2014 - 07/2018 West Bengal

GPA

8.9 / 10

KEY ACHIEVEMENTS

Cost-saving Development

I was a key contributor in designing and developing *Optimus*, a cloud expense optimization product that led to significant annual cost savings.

Owning a complete project solo

Developed a portal application independently for cross team TIA and provided with the solutions and enhancement ideas, along with demo showcase and the handover.
